Members noted the update received from the Borough Council regarding their intention to pass the footway lighting energy costs to Parish Councils from April 2021. The letter advised that the Borough Council had decided to postpone the imposition of energy costs onto parishes. One of the reasons for the decision was the prospect of local government reorganisation in the next couple of years. It would be prudent to await until the outcome of any re-organisation is known as all lights may come under one Authority. The Borough Council will also be looking at a planned programme of LED replacement to all of their lighting stock.
